

# COMFOOT HYBRID FLOORING

MODERN TECHNOLOGY - TIMELESS BEAUTY

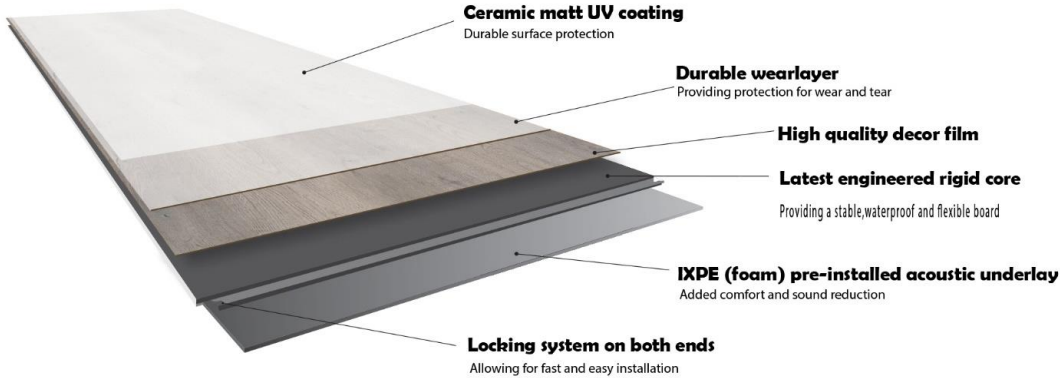

# HYBRID PLANK

by Acers Timber Flooring

Acers Comfoot Engineered Stone Polymer Composite (SPC) flooring is an innovative product combining stone and plastic. It captures the natural beauty of timber with the best features of laminate and vinyl flooring. It's a great choice for residential and commercial use. It is 20x more impact resistant than base laminates and 10x the impact resistance of WPC.
